

## FOR IMMEDIATE RELEASE

---

### *Partnering For Excellence in Short-Term Missions!*

---

It is with faith and excitement that we announce an exciting new partnership between DELTA Ministries International, Mission Data International, Standards of Excellence in STM, and Short-Term Missions Toolbox.

**DELTA**  
MINISTRIES  
INTERNATIONAL

Mission Data International

Being fully committed to excellence in short-term missions, and believing that collaboration will better serve the broader church and mission community, we serve in formal partnership with one another. We are committed to continued exploration of ways to better serve our constituents.

Over time, more cooperation among our ministries will be visible as we seek to provide services and resources to help short-term mission efforts be as effective and God glorifying as possible.

Seasoned leadership teams and a variety of resources we each bring to the partnership will provide relevant content and services to better assist a global audience that is committed to the Great Commission and to being excellent in short-term ministry. It will be our aim to provide services and resources that strengthen senders, goers and receivers\*. (\*click here for definition of terms: [www.soe.org/explore/about/definitions-and-terms/](http://www.soe.org/explore/about/definitions-and-terms/))

Under the terms of our partnership agreement, the four logos will be posted on our unique websites, and we will coordinate communication to our constituents to provide a complementary and united effort. Statistics and data will be blended to better assess the ethos of the missions environment, and the leaders of the four organizations will meet and pray routinely to insure best practices in the partnership.
